**Septuagésimo primer período de sesiones**  
Tema 134 del programa  
**Presupuesto por programas para el bienio 2016-2017**

## Condiciones de viaje por vía aérea

### Informe del Secretario General

#### *Resumen*

El presente informe del Secretario General sobre las condiciones de viaje por vía aérea se presenta de conformidad con las resoluciones de la Asamblea General [42/214](#), [45/248 A](#), [53/214](#), [63/268](#), [65/268](#), [67/254 A](#) y [69/274 A](#) y las decisiones 44/442 y 46/450, así como la decisión 57/589, en que la Asamblea pidió al Secretario General que le presentara cada dos años su informe sobre esta cuestión. El presente informe contiene información sobre las condiciones de viaje por vía aérea en el período de dos años terminado el 30 de junio de 2016 y estadísticas comparativas respecto del período de dos años terminado el 30 de junio de 2014, además de un análisis de las tendencias de los diez últimos años.

En el informe también se ofrece información sobre algunas cuestiones específicas relacionadas con los viajes por vía aérea, como solicitó la Asamblea General en sus resoluciones [67/254 A](#) y [69/274 A](#).

## I. Introducción

1. Las condiciones de viaje por vía aérea en las Naciones Unidas se rigen por una serie de resoluciones y decisiones de la Asamblea General, a saber, las resoluciones [42/214](#), [45/248 A](#), [53/214](#), [63/268](#), [65/268](#), [67/254 A](#) y [69/274 A](#) y las decisiones [44/442](#), [46/450](#) y [57/589](#). En ejercicio de las facultades discrecionales conferidas al Secretario General para autorizar excepciones en relación con las condiciones de viaje por vía aérea en casos determinados, el Secretario General promulgó la instrucción administrativa [ST/AI/2013/3](#), Amend.1 y Amend.2, al objeto de aplicar las diversas reglas del Reglamento del Personal relativas a las condiciones de viaje por vía aérea y a las excepciones a dichas reglas.

2. En el pasado se han establecido determinadas categorías de excepciones relativas a las condiciones de viaje, incluidas, entre otras, las siguientes: viajes de personas eminentes; viajes de personas destacadas; viajes en circunstancias que se consideran arduas o en las que, por razones médicas, se ha considerado apropiado autorizar el viaje en una clase superior; viajes de los oficiales de seguridad que acompañan al Secretario General, el Vice Secretario General y sus cónyuges; viajes de los oficiales de seguridad que acompañan al Presidente de la Asamblea General; y viajes en que se considera prudente autorizar el viaje en una clase superior debido a la falta de plazas en la clase autorizada normalmente.

3. En su resolución [67/254 A](#), la Asamblea General decidió que, en el caso de los funcionarios de categorías inferiores a la de Subsecretario General que realizaran viajes oficiales, las condiciones de viaje por vía aérea serían en clase ejecutiva si un solo tramo del viaje era de 9 horas de duración o más, y para viajes en varios tramos si el tiempo de viaje combinado era de 11 horas o más, incluido un tiempo máximo de 2 horas para conexiones, siempre y cuando el viaje al próximo destino se reanudara en las 12 horas siguientes. La Asamblea también solicitó al Secretario General que modificara sus instrucciones administrativas sobre las condiciones de viaje por vía aérea de manera que la duración de un viaje se determinara sobre la base de la ruta más económica disponible, siempre y cuando el tiempo adicional total del viaje completo no excediera de la ruta más directa en cuatro horas. La Asamblea también aprobó, con sujeción a las disposiciones de su resolución [67/254 A](#), las conclusiones y recomendaciones que figuraban en los informes de la Comisión Consultiva en Asuntos Administrativos y de Presupuesto sobre propuestas para una utilización más eficaz y eficiente de los recursos para viajes por vía aérea ([A/66/739](#)) y el informe de la Comisión Consultiva sobre condiciones de viaje por vía aérea ([A/67/636](#)), en que se establecía que la clase económica sería la clase de los viajes por vía aérea de los consultores y contratistas individuales, a menos que el Secretario General determinara otra cosa teniendo en cuenta las circunstancias del caso (por ejemplo, por motivos de salud y los intereses de la Organización) A ese respecto, el Secretario General Adjunto de Gestión promulgó una instrucción administrativa sobre viajes oficiales ([ST/AI/2013/3](#), Amend.1 y Amend.2), en la que se incorporaron las decisiones de la Asamblea. La instrucción administrativa también incluía cambios en las prestaciones de viaje de todas las demás personas que viajaran con autorización de las Naciones Unidas, con la excepción de aquellas personas expresamente excluidas de la política de conformidad con la sección VI, párrafo 20, de la resolución [67/254 A](#) de la Asamblea.

4. En la misma resolución, la Asamblea General observó la frecuencia y los costos crecientes de la autorización de excepciones a las condiciones de viaje por vía aérea y solicitó al Secretario General que adoptara medidas para limitar el uso de excepciones, que realizara un análisis de las tendencias en el uso de las excepciones y que, a más tardar en su sexagésimo noveno período de sesiones, presentara propuestas para hacer más estrictos los controles en esta materia. La Asamblea solicitó también al Secretario General que revisara el uso de excepciones para la categoría de personas prominentes y que la informara al respecto. Como se necesita más tiempo para examinar la cuestión, el Secretario General solicita que presente sus propuestas durante la primera parte de la continuación del septuagésimo tercer período de sesiones de la Asamblea General.

5. En las secciones II, III y IV del presente informe se ofrece un análisis detallado y explicaciones de los cambios en el número de las excepciones y los gastos adicionales conexos para las distintas categorías.

6. En la sección IV de su resolución [69/274 A](#), la Asamblea General solicitó al Secretario General que a) la informara de cualesquiera tendencias nuevas en cuanto a la utilización de las millas de viajero frecuente a fin de mejorar la administración de los viajes, b) presentara información actualizada detallada sobre la aplicación de las recomendaciones del informe de la Oficina de Servicios de Supervisión Interna sobre la auditoría general de las actividades relacionadas con los viajes por vía aérea y las prácticas conexas ([A/67/695](#)), c) consignara información amplia sobre las actividades de viajes por vía aérea, d) comunicara datos consolidados sobre los logros alcanzados mediante la aplicación de la sección VI de su resolución [67/254 A](#), e) transmitiera información completa sobre los efectos de la aplicación de Umoja en la gestión de los viajes, con datos actualizados, tendencias y análisis en todas las esferas relacionadas con los viajes por vía aérea de las Naciones Unidas, y f) una evaluación de las condiciones de las Naciones Unidas relacionadas con las clases de viajes. El Secretario General ha informado sobre estas cuestiones en las secciones V a X del presente informe.

7. La Asamblea General hizo suya la recomendación de la Comisión Consultiva en Asuntos Administrativos y de Presupuesto en su informe ([A/69/787](#)) de solicitar al Secretario General que realizase un nuevo análisis de la opción de la suma fija y presentase una propuesta actualizada en el presente informe. Habida cuenta de que se necesita más tiempo para examinar esta cuestión, el Secretario General propone que se mantenga la disposición de pagar una suma fija del 70% de la tarifa de clase económica menos restrictiva hasta la primera parte de la continuación del septuagésimo tercer período de sesiones de la Asamblea General, momento en que se presentará una propuesta final.

## II. Viajes de delegaciones

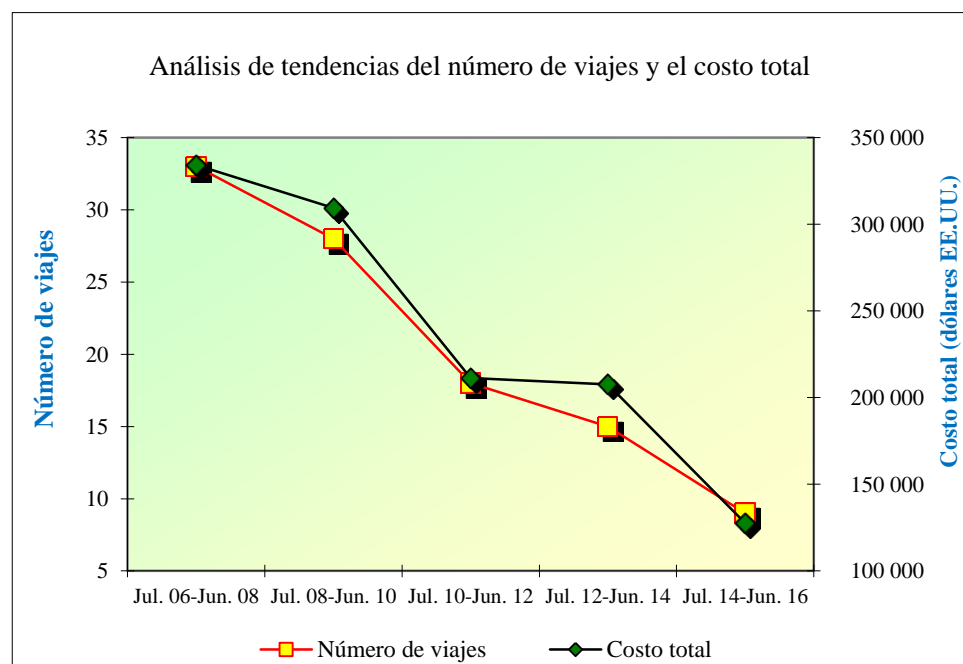

8. De conformidad con la resolución [42/214](#) de la Asamblea General, únicamente se pagarán los gastos de viaje por vía aérea en primera clase a los jefes de las delegaciones de los países menos adelantados que viajen para asistir a los períodos de sesiones ordinarios y extraordinarios de la Asamblea. Durante el período comprendido entre el 1 de julio de 2014 y el 30 de junio de 2016, se aprobaron

nueve viajes en primera clase con un costo de 127.600 dólares, mientras que en el período comprendido entre el 1 de julio de 2012 y el 30 de junio de 2014 se aprobaron 15 viajes con un costo de 207.673 dólares.

9. Como se muestra en el gráfico I, el número de viajes y, en consecuencia, el costo total de los viajes de los delegados de la Asamblea General ha venido disminuyendo con el tiempo, ya que se han recibido menos solicitudes de los países menos adelantados.

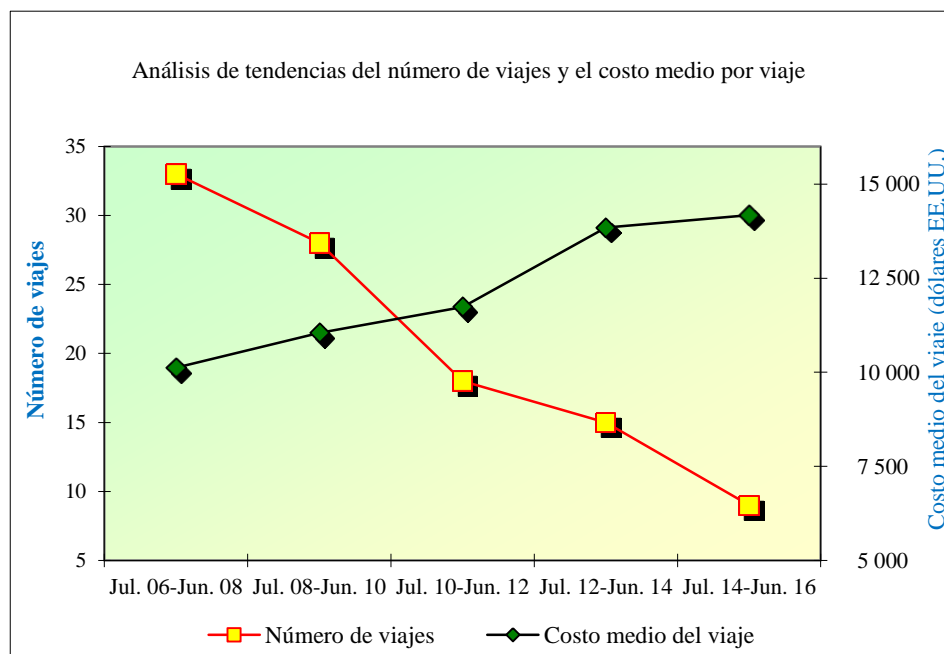

Gráfico I

**Viajes en primera clase de delegados para asistir a períodos de sesiones de la Asamblea General**

10. Como se muestra en el gráfico II, el costo medio por viaje ha venido aumentando constantemente, de 10.124 dólares para el período comprendido entre julio de 2006 y junio de 2008 a 14.178 dólares para el período comprendido entre julio de 2014 y junio de 2016. Esta tendencia coincide con el aumento generalizado de las tarifas aéreas en primera clase en todo el mundo.

Gráfico II  
**Viajes en primera clase de delegados para asistir a períodos de sesiones de la Asamblea General**

### III. Viajes del Presidente de la Asamblea General

11. A fin de que el Presidente de la Asamblea General pueda desempeñar de manera eficaz y eficiente las funciones del cargo, la Asamblea, en su resolución [53/214](#), decidió que el Presidente, dentro del marco del presupuesto por programas aprobado, estuviera plenamente autorizado para utilizar los fondos asignados en el presupuesto para la Oficina. Durante el período comprendido entre julio de 2014 y junio de 2016, solo se hizo un viaje en primera clase, a un costo adicional de 3.534 dólares en el período de dos años terminado el 30 de junio de 2016, en comparación con cuatro viajes con un costo adicional de 31.983 dólares en el período de dos años terminado el 30 de junio de 2014. El anexo VI del presente informe contiene información pormenorizada sobre los viajes en primera clase autorizados por el Presidente de la Asamblea General.

12. El número de viajes en primera clase del Presidente de la Asamblea General financiados con cargo al presupuesto ordinario ha disminuido de forma constante, de seis en el período comprendido entre julio de 2006 y junio de 2008 a uno solo en el período comprendido entre julio de 2014 y junio de 2016. El costo adicional por viaje durante el período terminado el 30 de junio de 2016 se redujo a 3.534 dólares frente a 7.996 dólares durante el período anterior. Esto puede atribuirse a un itinerario más corto por viaje frente a los cuatro viajes en el período anterior (véanse los gráficos III y IV).

#### IV. Excepciones autorizadas por el Secretario General

13. En su resolución [42/214](#), la Asamblea General autorizó al Secretario General a que, a su discreción, hiciera excepciones para permitir viajes en primera clase en casos determinados. Dichas facultades discrecionales también se ejercen de conformidad con la sección 4.8 de la instrucción administrativa [ST/AI/2013/3](#) cuando, en opinión del Secretario General, hay circunstancias especiales que lo justifiquen. Al ejercer esas facultades el Secretario General tiene en cuenta, entre otras cosas, lo siguiente:

a) Las solicitudes para viajar en una clase superior por razones médicas, que se habrán de presentar solo cuando haya motivos para esperar que el viaje en una clase inferior podría tener repercusiones nocivas directas y significativas para la salud del viajero. Todas esas solicitudes deben presentarse en primer lugar al Director de la División de Servicios Médicos acompañadas de documentación suficiente que permita al Secretario General determinar que el viaje en una clase superior evitaría esas repercusiones nocivas. La edad avanzada del viajero por sí sola no se considera una justificación suficiente para conceder excepciones;

b) El hecho de que el viajero tenga que viajar en una fecha determinada por exigencias del servicio y no hay plazas disponibles en la clase a la que normalmente tendría derecho. También puede ocurrir que, cuando no hay plazas disponibles en la clase a la que tendría derecho normalmente el viajero, el costo de las dietas que habría que pagarle mientras espera al próximo vuelo en que sí las haya sea mayor que el costo del viaje en una clase superior. El Secretario General tiene la facultad discrecional de decidir en cada caso si estos factores constituyen “circunstancias especiales” con arreglo a la instrucción administrativa [ST/AI/2013/3](#), Amend.1 y Amend.2;

c) Los casos en que el viajero es considerado una persona eminente por ser o haber sido Jefe de Estado o de Gobierno;

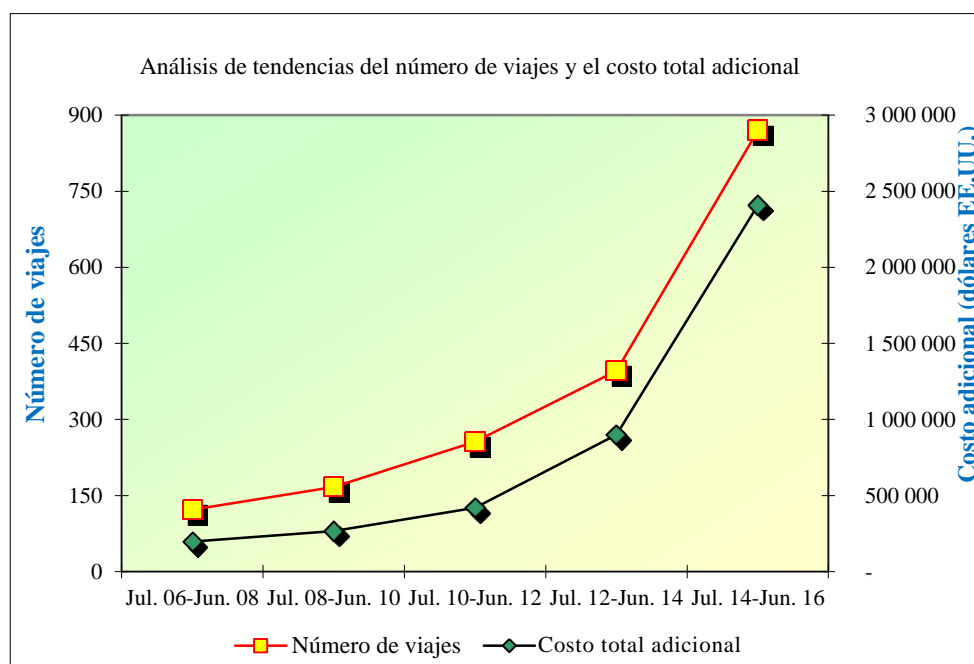

d) Los casos en que el viajero es considerado una persona destacada por ocupar o haber ocupado un cargo de nivel ministerial o cuando, en opinión del Secretario General, se trata de una personalidad internacional destacada en el ámbito político, científico, económico, humanitario o cultural que presta servicios a la Organización;

e) Los casos en que el viaje se considera arduo porque el viajero, después de haber cumplido una jornada de trabajo completa, debe viajar toda la noche para reincorporarse a su trabajo o asistir a una reunión de alto nivel en otro lugar a la mañana siguiente o inmediatamente después de su llegada. No obstante, es aconsejable evitar esos casos mediante una buena planificación previa de los viajes. El Secretario General tiene la facultad discrecional de decidir en cada caso si estos factores constituyen “circunstancias especiales” con arreglo a la instrucción administrativa [ST/AI/2013/3](#), Amend.1 y Amend.2.

14. Como se puede observar en el gráfico V, el número de viajes y el costo adicional total de las excepciones autorizadas por el Secretario General para la Secretaría han experimentado un aumento constante. La promulgación de la instrucción administrativa [ST/AI/2013/3](#), en la que se amplió el tiempo de viaje necesario para que una persona tuviera derecho a viajar en clase ejecutiva y se

estableció que la clase económica sería la clase de los viajes por vía aérea de los consultores, los contratistas individuales y otras personas que no fueran funcionarios y prestaran servicios a la Organización, dio lugar a un aumento del número de solicitudes de excepciones en el período comprendido entre julio de 2014 y junio de 2016, especialmente en la categoría de personas destacadas. Un gran número de personas destacadas prestan sus servicios a la Organización: al participar en reuniones sustantivas; en su calidad de miembros de comités técnicos y consultivos, y al realizar aportaciones a grupos de alto nivel sin costo alguno para la Organización. Es importante señalar que, en algunos casos y con arreglo a la política anterior sobre viajes, los viajes de personas destacadas no se trataban como excepciones porque tenían derecho a las mismas condiciones de transporte que los funcionarios.

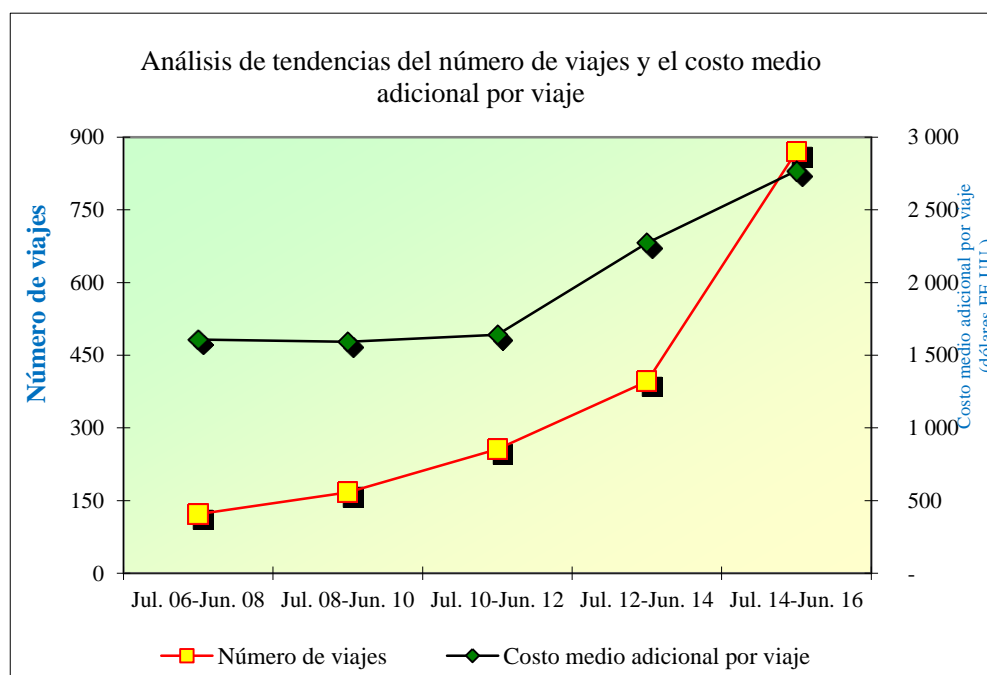

Gráfico V  
Excepciones aprobadas para la Secretaría de las Naciones Unidas

15. El gráfico VI muestra que durante el período comprendido entre julio de 2014 y junio de 2016, el costo adicional medio por viaje para la Secretaría aumentó a 2.769 dólares frente a 2.276 dólares para el período comprendido entre julio de 2012 y junio de 2014. Este aumento puede atribuirse a la tendencia mundial de aumento de las tarifas aéreas de primera clase y clase ejecutiva, debido en gran parte al costo adicional de las medidas de seguridad, los recargos en concepto de combustible y otros gastos de funcionamiento, que se han transferido a los viajeros.

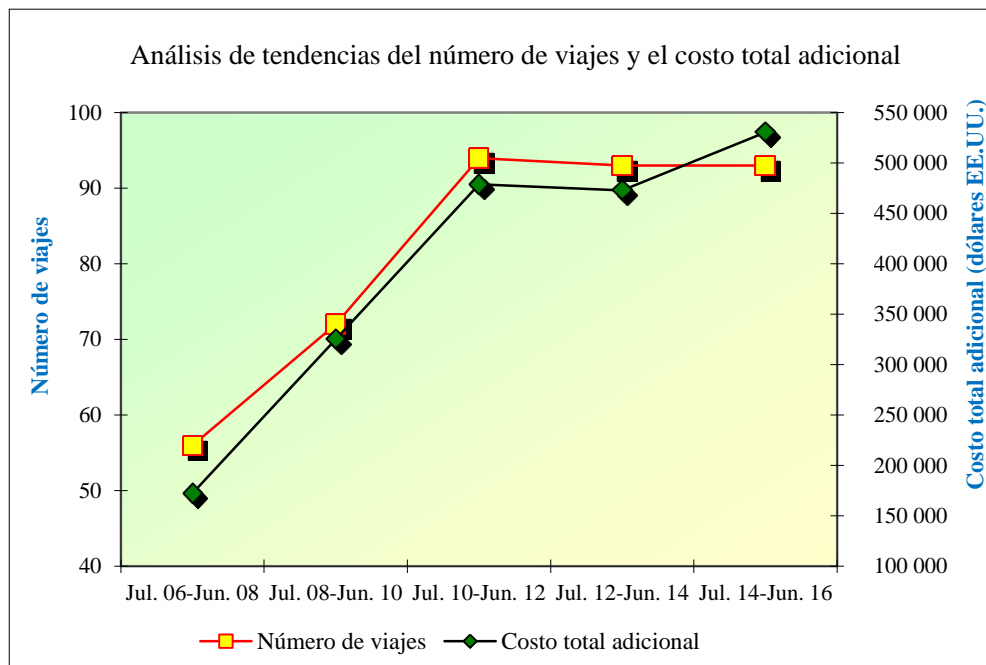

Gráfico VI  
**Excepciones aprobadas para la Secretaría de las Naciones Unidas**

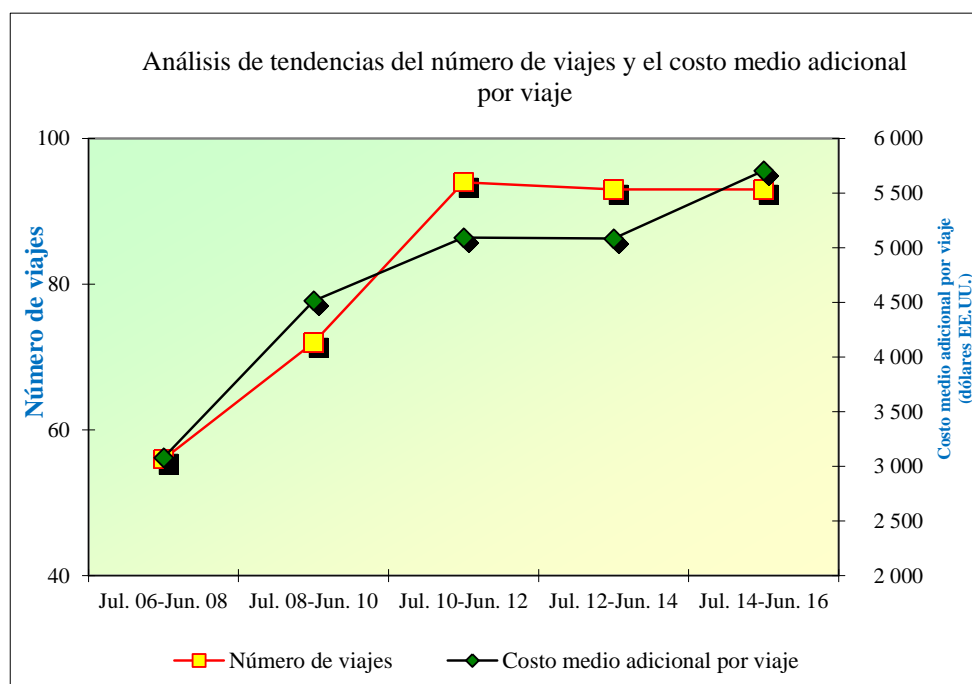

16. También se conceden excepciones cuando el viajero presta servicios de seguridad al Presidente de la Asamblea General, al Secretario General o al Vicesecretario General y a sus respectivos cónyuges o a otros funcionarios autorizados a viajar en nombre del Secretario General como sus representantes personales. Como se muestra en el gráfico VII, durante el período de dos años terminado el 30 de junio de 2016, hubo 93 viajes con un costo adicional de 530.565 dólares, en comparación con los 93 viajes realizados en el período terminado el 30 de junio de 2014 con un costo adicional de 472.914 dólares.

Gráfico VII  
Viajes de oficiales de seguridad

17. Como se muestra en el gráfico VIII, el costo adicional medio por viaje para oficiales de seguridad durante el período comprendido entre julio de 2014 y junio de 2016 fue de 5.705 dólares frente a 5.085 dólares en el período anterior. Este aumento puede atribuirse a la tendencia mundial del aumento de las tarifas aéreas de primera clase y clase ejecutiva.

Gráfico VIII  
Viajes de oficiales de seguridad

18. De conformidad con la resolución [65/268](#) de la Asamblea General, el presente informe incluye un resumen consolidado de las excepciones autorizadas con respecto a las Naciones Unidas y sus entidades afiliadas durante el período de dos años terminado el 30 de junio de 2016 (véase el cuadro 1) y un resumen comparativo consolidado de las excepciones autorizadas en el período de dos años terminado el 30 de junio de 2014 (véase el cuadro 2).

21. El cuadro 5 contiene un resumen de las excepciones autorizadas con respecto a entidades afiliadas de las Naciones Unidas en el período de dos años terminado el 30 de junio de 2016, y el cuadro 6 contiene un resumen de las autorizadas en el período de dos años terminado el 30 de junio de 2014. La información pormenorizada sobre las excepciones autorizadas durante el período que se examina para el Programa de las Naciones Unidas para el Desarrollo, el Fondo de las Naciones Unidas para la Infancia, el Fondo de Población de las Naciones Unidas, la Entidad de las Naciones Unidas para la Igualdad de Género y el Empoderamiento de las Mujeres, el Instituto de las Naciones Unidas para Formación Profesional e Investigaciones, la Oficina del Alto Comisionado de las Naciones Unidas para los Refugiados, el Programa de las Naciones Unidas para el Medio Ambiente, el Programa de las Naciones Unidas para los Asentamientos Humanos, la Oficina de las Naciones Unidas contra la Droga y el Delito, el Tribunal Penal Internacional para Rwanda, el Tribunal Penal Internacional para la ex-Yugoslavia y la Convención Marco de las Naciones Unidas sobre el Cambio Climático figura en los anexos VII a XVIII.

22. Los gráficos IX y X indican que para las otras entidades afiliadas de las Naciones Unidas, el número de viajes aumentó a 334 en el período de dos años terminado el 30 de junio de 2016, frente a los 252 realizados en el período anterior. El costo adicional total aumentó a 731.401 dólares, frente a 743.389 dólares para el período anterior. El costo adicional medio por viaje disminuyó a 2.190 dólares en el período de dos años terminado el 30 de junio de 2016, en comparación con 2.950 dólares para el período anterior. Esta disminución podría atribuirse a los esfuerzos realizados por las entidades para hacer reservas de viajes por adelantado.

**V. Uso de millas de viajero frecuente**

23. En la sección IV, párrafo 7, de su resolución [69/274 A](#), la Asamblea General solicitó al Secretario General que siguiera manteniéndose al corriente de las mejores prácticas de las empresas en lo referente a las millas de viajero frecuente, y que la informara acerca de cualesquiera tendencias nuevas en cuanto a la utilización de las millas de viajero frecuente a fin de mejorar la administración de los viajes.

24. La Secretaría sigue supervisando las mejores prácticas en todas las esferas de los viajes, en particular mediante la participación en dos redes de gestión de viajes: la Red Interinstitucional de Viajes y la Red de Referencia de Servicios de Viajes. La Red Interinstitucional de Viajes es un grupo de trabajo técnico compuesto por los responsables de la tramitación de los viajes de 75 organizaciones internacionales, como la Organización de las Naciones Unidas para la Alimentación y la Agricultura, el Banco Interamericano de Desarrollo, el Organismo Internacional de Energía Atómica, la Organización de Aviación Civil Internacional, la Corte Penal Internacional, el Fondo Internacional de Desarrollo Agrícola, la Organización Internacional del Trabajo, el Fondo Monetario Internacional, INTERPOL, la Organización del Tratado del Atlántico Norte, la Organización de Cooperación y Desarrollo Económicos, la Organización para la Seguridad y la Cooperación en Europa, el Programa Conjunto de las Naciones Unidas sobre el VIH/SIDA, el Programa de las Naciones Unidas para el Desarrollo, el Programa de las Naciones Unidas para el Medio Ambiente (PNUMA), la Organización de las Naciones Unidas para la Educación, la Ciencia y la Cultura, la Convención Marco de las Naciones Unidas sobre el Cambio Climático, el Fondo de las Naciones Unidas para la Infancia, la Organización de las Naciones Unidas para el Desarrollo Industrial, el Programa Mundial de Alimentos, la Organización Mundial de la Salud, la Organización Mundial de la Propiedad Intelectual, el Banco Mundial y la Secretaría de las Naciones Unidas. La Red de Referencia de Servicios de Viajes es un grupo integrado por los responsables de la tramitación de los viajes de 15 organizaciones (casi exclusivamente del sector privado) como AABB, Allstate, Boeing, Dell, Johnson and Johnson, Merck, Microsoft, RELX, Siemens, United Technologies Corp., Dow, Honeywell, Rio Tinto, el Banco Mundial y la Secretaría de las Naciones Unidas.

25. A fin de proporcionar a la Asamblea General una actualización completa sobre las millas de viajero frecuente, en octubre de 2016 la Secretaría reunió información sobre el tema de las dos redes de viaje.

26. Tras una solicitud de información de la Red Interinstitucional de Viajes, se obtuvieron respuestas de un total de 13 organizaciones. De las 13 organizaciones, tres combinan programas institucionales de millas de viajero frecuente y acuerdos con aerolíneas (descuentos) en sus programas de viajes, aunque cabe señalar que solo una de las tres tiene un acuerdo de millas de viajero frecuente con más de una aerolínea. Las 13 organizaciones permiten que el viajero reúna millas procedentes de viajes oficiales y las utilice para viajes personales.

27. Un bajo nivel similar de aplicación de programas institucionales de viajero frecuente en el sector público se refleja también en el sector privado. Ninguna de las organizaciones de la Red de Referencia de Servicios de Viajes reúne millas de viajero frecuente a nivel institucional o gestionan un programa de ese tipo.

28. Estas organizaciones de los sectores público y privado por lo general mantienen que no es rentable gestionar un programa institucional de millas de viajero frecuente, ya que los costos de la gestión de ese programa superan con creces sus beneficios conexos. La Secretaría observa que esta tendencia actual es acorde con exámenes y conclusiones anteriores sobre el tema, y a este respecto, se hace referencia al examen amplio realizado por un consultor independiente en 2012 (véase [A/66/676](#), sección IV).

29. La aplicación de un programa de ese tipo en la Sede de las Naciones Unidas entrañaría la gestión de programas de millas de viajero frecuente con las más de 70 aerolíneas que se utilizan con más frecuencia para viajes oficiales. Además, las millas de viajero frecuente normalmente se pueden canjear solo para un número limitado de asientos en un vuelo determinado, lo que limita su utilidad práctica para los viajes de negocios, que a menudo pueden ser de último minuto o sujetos a cambios de itinerario. Otro factor que complica la situación en las Naciones Unidas es la necesidad de examinar las distintas fuentes de financiación, las millas acumuladas por una fuente de financiación podrían no ser necesariamente utilizadas por otra. La perspectiva de administrar un programa institucional de viajero frecuente en las Naciones Unidas se volvería cada vez más compleja y la gestión de ese programa requeriría la movilización de importantes recursos adicionales.

30. La negociación de acuerdos con aerolíneas que ofrecen descuentos por adelantado sobre las tarifas aéreas de mercado no tiene ninguna de esas desventajas. Por esta razón, las organizaciones más grandes de los sectores público y privado de un tamaño comparable al de la Secretaría suelen preferir esos acuerdos a los programas institucionales de millas de viajero frecuente.

31. De conformidad con la aprobación por la Asamblea General en la sección VI, párrafo 2, de su resolución [67/254](#) A de las conclusiones y recomendaciones del informe de la Comisión Consultiva en Asuntos Administrativos y de Presupuesto, todo el personal de la Secretaría tiene instrucciones de no utilizar para viajes particulares las millas de viajero frecuente obtenidas como resultado de los viajes oficiales realizados en nombre de la Organización, y se les alienta a que, cuando sea factible, utilicen para viajes oficiales esas millas de viajero frecuente (véase [A/66/739](#), párrafo 11). Por esos motivos, la Organización tiene confianza en que los funcionarios actuarán con integridad al utilizar las millas acumuladas en viajes oficiales.

32. La Secretaría ha reiterado esta expectativa en una revisión de la circular informativa sobre los viajes.

## **VI. Aplicación de las recomendaciones contenidas en el informe de la Oficina de Servicios de Supervisión Interna sobre la auditoría general de las actividades relacionadas con los viajes por vía aérea y las prácticas conexas**

33. En la sección IV, párrafo 9, de su resolución [69/274](#) A, la Asamblea General subrayó la importancia de dar efecto a todas las recomendaciones del informe de la Oficina de Servicios de Supervisión Interna sobre la auditoría amplia de las actividades relacionadas con los viajes por vía aérea y las prácticas conexas ([A/67/695](#)) y solicitó al Secretario General que facilitase información actualizada respecto de su aplicación en el contexto de sus futuros informes sobre la cuestión.

34. El informe de la Oficina de Servicios de Supervisión Interna contenía un total de 22 recomendaciones. El anexo XXII del informe anterior del Secretario General sobre las condiciones de viaje por vía aérea ([A/69/643](#) y Corr.1) contiene una

actualización anterior sobre las recomendaciones. Sin embargo, en esos momentos, en algunos casos, la aplicación plena de las recomendaciones dependía de la aplicación de Umoja. Posteriormente, se puso en marcha el módulo sobre viajes de Umoja en las entidades de los grupos 3 y 4 en junio y noviembre de 2015, respectivamente. Por tanto, en esta sección se ofrece una actualización de las recomendaciones, según proceda.

35. Los informes de inteligencia institucional se han priorizado y publicado en forma periódica. Ahora hay capacidad plena para elaborar informes detallados y amplios. Se está trabajando para publicar informes prioritarios lo antes posible.

36. La vigilancia del cumplimiento de la directriz sobre la compra anticipada de billetes para viajes aéreos se ha mejorado mediante la introducción de un informe de inteligencia institucional. El informe reemplaza al proceso de presentación de informes trimestrales en los que se consolidaban manualmente las aportaciones de los departamentos y oficinas en la Sede de las Naciones Unidas, las oficinas situadas fuera de la Sede y las misiones de mantenimiento de la paz.

37. La Oficina de Servicios Centrales de Apoyo sigue trabajando con los asociados de las aerolíneas para consolidar los acuerdos locales y regionales en acuerdos mundiales, en la medida de lo posible y en el mejor interés de la Organización, y promover activamente esos acuerdos en las oficinas de tramitación de viajes de la Secretaría. En total, se han negociado seis de esos acuerdos mundiales y se están negociando otros cinco. Cabe señalar que los descuentos globales siguen siendo poco habituales en el sector de los viajes. A menudo, los descuentos más atractivos siguen estando disponibles a nivel local o regional.

38. A fin de que las oficinas de la Secretaría puedan utilizar los servicios de las oficinas de tramitación de viajes en toda la Secretaría, en abril de 2016 la Oficina de Servicios Centrales de Apoyo introdujo un mecanismo de recuperación de gastos en forma de una tasa fija por el servicio. El mecanismo permite a las oficinas de la Secretaría comprar billetes de avión en lugares en que la Organización puede obtener la mejor relación entre calidad y precio, y al mismo tiempo permite que las oficinas de tramitación de viajes utilicen los ingresos generados por la tasa de servicio y la apliquen para aumentar los niveles de recursos o satisfacer otros costos relacionados con la transacción (como horas extraordinarias). La aplicación del mecanismo se encuentra en una etapa temprana y ha demostrado ser difícil, porque, por el momento, la tasa de servicio solo se puede recuperar manualmente y *a posteriori*, lo que ha limitado su aplicación en la práctica. Se prevé que la aplicación aumente considerablemente con la introducción de una mejora de Umoja que permita que el cobro de los gastos de tasa de servicio se realice por adelantado como parte de la solicitud de viajes de Umoja. Sin embargo, se prevé contar con un modelo verdaderamente mundial solo después de la ejecución del proyecto del marco de modelo global de prestación de servicios, en que un número limitado de oficinas regionales de tramitación de viajes concluirían arreglos de viaje procedentes de sus regiones, independientemente de la oficina que financie los viajes. Esas oficinas regionales de tramitación de viajes estarán en mejores condiciones para aprovechar plenamente el volumen de datos consolidados de viajes aéreos disponibles a través del módulo de Umoja cuando negociaran con aerolíneas locales o regionales.

39. En una fase piloto, se está modificando la práctica actual de hacer una auditoría de las tarifas en la Sede de las Naciones Unidas. La Oficina de Servicios Centrales de Apoyo está contratando a una tercera parte independiente para llevar a cabo auditorías periódicas de las tarifas de la agencia de viajes en la Sede de las Naciones Unidas. Con este control adicional, la labor de la Sección de Viajes y Transporte pasará de someter a auditoría simultánea las tarifas aéreas a hacer una supervisión y verificaciones aleatorias de las solicitudes de viajes *a posteriori*, lo que permitiría que la Dependencia de Viajes se centrara en las actividades de mayor valor añadido, como análisis de los procesos de viajes e institucionales complejos. Si la fase piloto tiene éxito, este proceso se aplicaría en otras oficinas de tramitación de viajes de la Secretaría.

40. Con otra mejora del módulo de viajes de Umoja para distinguir memorandos de crédito, la Organización estará en mejores condiciones de vigilar los reembolsos resultantes de pasajes de avión cancelados o no utilizados. Si hay que cambiar o anular un pasaje durante el proceso de aprobación, la oficina de tramitación de viajes se encarga de registrar un reembolso adeudado a la Organización. Además, una vez que un viajero confirme, como parte de su informe de gastos, que existe un pasaje no utilizado parcial o totalmente, el sistema genera una notificación a la oficina de tramitación de viajes competente, que registra el reembolso en el sistema. La solicitud de reembolso a los proveedores es un proceso fuera de línea y el reembolso efectivo se acredita a la Organización mediante el fichero que carga la factura. Con este proceso, la Organización estará en mejores condiciones de informar qué sumas se han recibido y las que todavía están pendientes. Continúa la labor sobre las mejoras necesarias del sistema y el informe de inteligencia institucional para extraer los datos registrados en Umoja relativos a los reembolsos solicitados.

41. Como resultado de la aplicación del módulo de viajes de Umoja, se ha reducido el procesamiento manual de solicitudes de viajes. Umoja ha introducido el concepto de autoservicio de los empleados, con arreglo al cual los viajeros pueden hacer directamente las solicitudes de viajes en el sistema, que sustituye al formulario en papel cuyos datos introducía posteriormente el personal administrativo en el sistema antiguo de tecnología de la información. La aplicación de Umoja ha racionalizado el proceso de aprobación al reducir el número de aprobaciones necesarias, entre 8 y 12 (según el lugar de destino) a 3. El proceso de pago de pasajes a los proveedores se ha automatizado en su mayor parte debido a la introducción de la función automática de verificación de facturas. En los casos en que no hay cambios en el informe de gastos en comparación con la solicitud de viaje original, la aprobación de la solicitud de reembolso de los gastos también es automática. Cabe señalar que, si bien se han logrado importantes progresos en la reducción del trabajo manual en todo el proceso de tramitación de los viajes de principio a fin, el volumen de trabajo de la oficina ha aumentado considerablemente con la introducción del módulo de viajes de Umoja. Esto se debe a los numerosos campos de datos adicionales que se deben registrar en el sistema, como información sobre el transportista para las negociaciones con las aerolíneas, información sobre el itinerario en el formato de la Asociación de Transporte Aéreo Internacional para la presentación de informes sobre gases de efecto invernadero e información sobre reembolsos para obtener reembolsos. Los documentos originales sobre los efectos del cambio a Umoja previeron un aumento del volumen de trabajo de más del 50%,

que han confirmado recientemente los responsables de la tramitación de los viajes, sobre la base de sus experiencias desde el despliegue de Umoja.

42. Se ha finalizado y aplicado el modelo estándar de detalle de los trabajos para los contratos de servicios de gestión de viajes en las misiones de mantenimiento de la paz, lo que garantiza un enfoque estándar y consistente para las actividades de adquisición y gestión de las agencias de viajes. Ese mismo modelo podría ser utilizado por oficinas no relacionadas con el mantenimiento de la paz (es decir, las oficinas fuera de la Sede, las comisiones económicas, etc.) para establecer sus contratos de gestión de viajes. La coordinación entre los responsables de la tramitación de los viajes está ahora bien establecida. La Oficina de Servicios Centrales de Apoyo sigue celebrando videoconferencias mensuales relacionadas con los procesos institucionales y cuestiones de política relacionados con los viajes con los responsables de la tramitación de los viajes de las oficinas situadas fuera de la Sede, las comisiones regionales y las misiones de mantenimiento de la paz. Se introdujo una segunda videoconferencia al mes que se centra específicamente en las cuestiones técnicas relativas al módulo de viajes de Umoja. La audiencia de esas videoconferencias se ha ampliado más allá de los responsables de la tramitación de los viajes para incluir a los encargados de aprobar viajes y envíos (oficiales certificadores), los asociados de derechos humanos y otros interesados pertinentes relacionados con los viajes. La Oficina celebra ahora una conferencia anual para los responsables de la tramitación de los viajes de la Secretaría, la segunda de las cuales tuvo lugar en octubre de 2016. Esas conferencias constituyen una plataforma para que los responsables de la tramitación de los viajes de la Secretaría planteen y examinen cuestiones de interés mutuo y aprendan de las experiencias y las mejores prácticas de toda la Organización.

43. La Secretaría ha realizado un estudio de la opción de la suma fija para verificar que los supuestos siguen siendo válidos y que la opción sigue estando justificada sobre la base de criterios establecidos. Con este fin, se obtuvieron datos de la Sede de las Naciones Unidas, las oficinas fuera de la Sede, así como de las misiones de mantenimiento de la paz de mayor tamaño, que en conjunto representan la gran mayoría del volumen de viajes de las misiones sobre el terreno, para comparar las sumas fijas efectivas abonadas con los costos teóricos que la Organización hubiera tenido que sufragar si los funcionarios hubieran ejercido su derecho alternativo a la expedición de pasajes, pequeños gastos de salida y llegada y envíos conexos gestionados por la Organización. Para cada entidad, se pidió una muestra aleatoria de diez autorizaciones de viaje para cada uno de los diez destinos principales con suma fija de la entidad para el período comprendido entre julio de 2014 y junio de 2015, con un total de 100 puntos de datos por entidad, cuando procedía. Los datos de casi 1.300 funcionarios (o sus familiares) muestran que el promedio de la suma fija pagada a un funcionario (o su familiar) con derecho a percibirla fue de 2.019 dólares frente a un total de 2.560 dólares para la combinación de pasajes, pequeños gastos de salida y llegada y envíos. Así, la suma fija supone aproximadamente 541 dólares (21%) menos para la Secretaría que la opción alternativa. También cabe señalar que los gastos generales de administración son menores cuando se tramita la suma fija en comparación con los casos en que la Organización hace todos los arreglos para las vacaciones en el país de origen, la visita a la familia o el subsidio de educación. Si bien esto no se considera en la

evaluación periódica como tal, apoya la conclusión de que debería alentarse el uso de la suma fija, ya que supone un menor costo para la Secretaría.

44. Las instrucciones administrativas actualizadas sobre el exceso de equipaje, envíos y seguros (ST/AI/2015/1 y ST/AI/2016/4) presentadas en marzo de 2015 y julio de 2016, respectivamente, incluyen las prestaciones que anteriormente figuraban en la anterior regla 107.21.

45. En el contexto de la aplicación del nuevo conjunto integral de la remuneración del régimen común aprobado por la resolución 70/244 de la Asamblea General en diciembre de 2015, en particular los cambios de las prestaciones del envío por traslado, como la cuantía máxima de la suma fija de la prima de traslado propuesta por la Comisión de Administración Pública Internacional en su informe anual A/70/30, la Secretaría junto con otras organizaciones del régimen común de las Naciones Unidas, está examinando la posibilidad y la manera de ajustar la cuantía de las sumas fijas actuales, en particular si sería apropiado y rentable para la Organización un enfoque de “zonificación” geográfica. La coordinación con otros fondos y programas y organismos especializados del régimen común es fundamental para que los funcionarios disfruten de condiciones de servicio similares, independientemente de la entidad del sistema de las Naciones Unidas que los emplee.

## **VII. Información amplia sobre las actividades de viajes por vía aérea y los efectos de la aplicación de Umoja en la gestión de los viajes**

46. En la sección IV, párrafo 10, de su resolución 69/274 A, la Asamblea General recordó los párrafos 32 a 34 del informe de la Comisión Consultiva (A/69/787), y solicitó al Secretario General que, en su próximo informe, consignase una información amplia sobre las actividades de viajes por vía aérea.

47. En la sección IV, párrafo 14 de la misma resolución, la Asamblea General solicitó al Secretario General que le transmitiera en su próximo informe información completa sobre los efectos de la aplicación de Umoja en la gestión de los viajes, con datos actualizados, tendencias y análisis en todas las esferas relacionadas con los viajes por vía aérea de las Naciones Unidas.

48. Dado que el módulo de viajes de Umoja también ofrece información amplia sobre las actividades de viajes por vía aérea, en el presente informe se incluye una respuesta consolidada a las solicitudes de la Asamblea General mencionadas más arriba. El Secretario General se complace en presentar a la Asamblea General información amplia sobre las actividades de viajes por vía aérea por primera vez. Esta información amplia se basa en los datos del módulo de viajes de Umoja, obtenidas mediante el módulo de inteligencia institucional.

49. El módulo de viajes de Umoja se ha desplegado de manera gradual<sup>1</sup>. Se puso a prueba en la Misión de Estabilización de las Naciones Unidas en Haití (MINUSTAH) en julio de 2014. Tras una fase piloto realizada con buenos resultados, en junio de 2015 se implantó en las entidades del grupo 3. En noviembre de 2015 el módulo también se puso en marcha en las entidades del grupo 4, entre ellas la Sede de las Naciones Unidas.

50. En esta etapa, todos los viajes en toda la Secretaría se tramitan a través del módulo de viajes de Umoja, con la excepción del personal nacional y el personal uniformado que prestan servicios en las misiones de mantenimiento de la paz, que se incluirá una vez el módulo esté lo suficientemente estabilizado.

51. Al examinar la información amplia, debe tenerse en cuenta el enfoque gradual de la aplicación de Umoja, en particular a lo largo de varios años. Es evidente que no se pueden comparar datos entre años en una situación en que diferentes partes de la Secretaría han venido aplicando el módulo de viajes de Umoja en distintos momentos. La comparabilidad mejorará en el futuro, a medida que el módulo empiece a funcionar plenamente en la Secretaría.

52. Si bien aún existen dificultades relacionadas con la estabilización continua y la gestión del cambio de los procesos institucionales, los efectos de la aplicación de Umoja en la gestión de los viajes han sido en general positivos (véase en el párrafo 41 del presente informe una sinopsis de los beneficios relacionados con los viajes). Cuando procede, se han incluido en los beneficios generales de Umoja.

53. El uso de una plataforma común (viajes de Umoja) permite nuevas estructuras organizativas. Con 59 oficinas de tramitación de viajes de Umoja, los viajes siguen fragmentados, lo que limita la reducción de los gastos de viajes, la aplicación consistente de las políticas, las necesidades de apoyo y la introducción de nuevas tecnologías, como los sistemas de reservas electrónicas. Por tanto, en el informe del Secretario General sobre el modelo global de prestación de servicios (A/71/417) se incluye una propuesta para una futura organización de los viajes más centralizada.

54. Un efecto imprevisto, sin embargo, ha sido el aumento de las necesidades de apoyo derivadas de la introducción del concepto de autoservicio de los empleados (véase el párr. 41). Desde la aplicación de Umoja, alrededor de 11.000 del total de 116.000 solicitudes de soporte y órdenes de trabajo en el sistema iNeed estaban relacionados con los viajes. Este nuevo requisito de apoyo supone una carga importante en la Oficina de Servicios Centrales de Apoyo, ya que los recursos para viajes no han aumentado de manera conmensurable con las nuevas funciones y el

<sup>1</sup> Calendario del despliegue de viajes de Umoja y entidades:

- Prueba experimental (julio 2014): MINUSTAH
- Grupo 3 (junio 2015): Oficina de Coordinación de Asuntos Humanitarios (a nivel mundial), entidades de las Naciones Unidas en Nairobi (Oficina de las Naciones Unidas en Nairobi, PNUMA, Programa de las Naciones Unidas para los Asentamientos Humanos (ONU-Hábitat), Comisión Económica y Social para Asia y el Pacífico y Asistencia de las Naciones Unidas a los Procesos contra el Khmer Rouge.
- Grupo 4 (noviembre 2015): Sede de las Naciones Unidas, Oficina de las Naciones Unidas en Ginebra, Oficina de las Naciones Unidas en Viena, Comisión Económica para África, Comisión Económica y Social para Asia Occidental, Comisión Económica para América Latina y el Caribe, Comisión Económica para Europa, Tribunales Internacionales, operaciones de mantenimiento de la paz y misiones políticas especiales (personal internacional).

apoyo que se exigen al responsable del proceso. No se ha producido una reubicación interna de recursos, a pesar de que el volumen de trabajo relacionado con los recursos para viajes en general ha aumentado significativamente como resultado de los viajes de Umoja, como se señaló anteriormente. La escasez de recursos también afecta a otras esferas, como la presentación de informes y análisis de inteligencia institucional, y afecta la capacidad del responsable del proceso para aprovechar plenamente las posibilidades del sistema Umoja.

55. El módulo de viajes de Umoja es un módulo muy personalizado en relación con el módulo “estándar” SAP de viajes. La adaptación se realizó para satisfacer todos los aspectos de las políticas y los requisitos de presentación de informes relacionados con los viajes en la Secretaría. Sin embargo, se ha hecho evidente que este alto nivel de adaptación está repercutiendo negativamente en el funcionamiento eficaz del módulo de viajes de Umoja. En particular, persisten problemas de integración interfuncional (por ejemplo, entre el módulo de viajes y el módulo de finanzas), que requieren apoyo especializado. Aproximadamente el 10% de todos los problemas señalados por el grupo de trabajo establecido tras el despliegue de los grupos 3 y 4 están relacionados con los viajes. Si bien se ha avanzado mucho para resolver los problemas más urgentes, continúa la labor para estabilizar el módulo.

56. Continúa el desarrollo del entorno de inteligencia institucional para viajes. El primer entorno de presentación de informes se lanzó a mediados de 2016, con el apoyo de Umoja y la Oficina de Tecnología de la Información y las Comunicaciones. Durante las pruebas se determinaron necesidades adicionales, que se están resolviendo y comprobando actualmente. Se prevé que se podrá disponer gradualmente de informes de inteligencia institucional para los usuarios finales en 2017.

57. Habida cuenta de lo anterior, al Secretario General le complace presentar a la Asamblea General en los párrafos siguientes información actualizada sobre las actividades de viajes por vía aérea solicitada en los párrafos 32 a 34 del informe de la Comisión Consultiva ([A/69/787](#)).

58. Cabe señalar que los cuadros que figuran a continuación y los anexos correspondientes se basan en datos de Umoja de julio de 2014 a junio de 2016. Como partes concretas de la Secretaría han implantado Umoja de manera gradual a lo largo de este período, no es posible comparar los datos de manera significativa entre los distintos años de presentación de informes.

#### **Volumen, frecuencia y finalidad de los viajes**

59. En el cuadro 7 se ofrece una sinopsis general del número de viajes por categoría de viajes para el período comprendido entre julio de 2014 y junio de 2016. Estas cifras incluyen todas las modalidades de viaje, como aviones comerciales, aeronaves de las Naciones Unidas, trenes, automóviles, etc.

**Cuadro 7**  
**Volumen de viajes por categoría**

(Número de viajes)

<i>Categoría de viajes</i>	<i>2014 H2</i>	<i>2015 AC</i>	<i>2016 H1</i>	<i>Total</i>
Viajes oficiales	1 252	25 881	52 726	79 859
Prestaciones de viaje	265	4 208	8 013	12 486
Viajes para recursos humanos	29	863	2 132	3 024
Viajes en grupo	718	1 561	419	2 698
<b>Total</b>	<b>2 265</b>	<b>32 520</b>	<b>63 296</b>	<b>98 081</b>

*Abreviaturas:* AC: Año completo; H1: Enero a junio; H2: Julio a diciembre.

60. En el anexo XIX figura una sinopsis más detallada del volumen, la frecuencia y la finalidad de cada categoría de viajes. En el anexo XX figura una sinopsis del volumen de viajes por esfera institucional.

**Clase de viajes por vía aérea**

61. En el cuadro 8 se proporciona una sinopsis del número de viajes en aeronaves comerciales, por condiciones de viaje, para el período comprendido entre julio de 2014 y junio de 2016.

**Cuadro 8**  
**Volumen de viajes por condiciones de viaje**

(Número de viajes)

<i>Condiciones de viaje</i>	<i>2014 H2</i>	<i>2015 AC</i>	<i>2016 H1</i>	<i>Total</i>
Clase económica	817	13 036	29 614	43 467
Clase ejecutiva	–	1 429	5 250	6 679
Primera clase	–	9	25	34
Varias clases	–	303	901	1 204
<i>Sin clasificar<sup>a</sup></i>	78	1 995	2 113	4 186
<b>Total</b>	<b>895</b>	<b>16 772</b>	<b>37 903</b>	<b>55 570</b>

*Abreviaturas:* AC: Año completo; H1: Enero a junio; H2: Julio a diciembre.

<sup>a</sup> La solución de inteligencia institucional da actualmente valores en blanco para varios viajes. Se están realizando más pruebas para resolver este problema técnico para futuros informes.

### Costo de los viajes

62. En el cuadro 9 se presenta el desglose de los gastos de viaje por categoría de viajes para el período comprendido entre julio de 2014 y junio de 2016. Las cifras incluyen todas las modalidades de viaje.

Cuadro 9

#### Gastos de viaje por categoría de viajes

(En miles de dólares de los Estados Unidos)

Categoría de viajes	2014 H2			2015 AC			2016 H1		
	Pasaje	Otros	Total	Pasaje	Otros	Total	Pasaje	Otros	Total
Viajes oficiales	117	697	815	21 051	28 764	49 815	64 050	90 254	154 304
Prestaciones de viaje	229	170	399	1 198	4 407	5 604	1 315	9 165	10 480
Viajes para recursos humanos	123	(21)	102	2 433	913	3 346	6 333	3 089	9 422
Viajes en grupo	931	(15)	916	2 013	95	2 108	185	105	290
<b>Total</b>	<b>1 402</b>	<b>831</b>	<b>2 233</b>	<b>26 695</b>	<b>34 178</b>	<b>60 873</b>	<b>71 882</b>	<b>102 613</b>	<b>174 496</b>

Abreviaturas: AC: Año completo; H1: Enero a junio; H2: Julio a diciembre.

63. Los gastos se desglosan en gastos en “pasajes” y “otros” gastos. La categoría “otros” incluye todos los gastos no relacionados con los pasajes, como las dietas, los pequeños gastos de salida y llegada, etc. En la actualidad el sistema no permite un desglose detallado de los gastos efectivos no relacionados con los pasajes, ya que se consignan en forma consolidada solo en el módulo financiero.

64. Para un desglose detallado de los gastos por esfera institucional de Umoja, véase el anexo XXI.

#### Cumplimiento de la política de adquisición anticipada

65. En el cuadro 10 se presenta una sinopsis general del volumen en aviones comerciales y del cumplimiento de la directiva sobre la política de compra anticipada para el período comprendido entre julio de 2014 y junio de 2016.

**Cuadro 10**  
**Cumplimiento de la directiva de la política de adquisición anticipada,**  
**por categoría de viajes**

(Número de viajes; porcentaje)

Categoría de viajes	2014 H2		2015 AC		2016 H1	
	Número de viajes	Cumplimiento	Número de viajes	Cumplimiento	Número de viajes	Cumplimiento
Viajes oficiales	55	20%	13 571	25%	36 296	32%
Prestaciones de viaje	104	56%	480	44%	700	52%
Viajes para recursos humanos	30	37%	677	28%	1 712	31%
Viajes en grupo	391	33%	951	34%	93	37%
<b>Total</b>	<b>582</b>	<b>36%</b>	<b>15 738</b>	<b>26%</b>	<b>38 892</b>	<b>32%</b>

*Abreviaturas:* AC: Año completo; H1: Enero a junio; H2: Julio a diciembre.

66. En la categoría principal de viajes oficiales, el cumplimiento ha aumentado constantemente, del 25% en 2015 al 32% en el primer semestre de 2016. Las categorías de prestaciones de viaje y viajes de recursos humanos muestran tendencias positivas similares, y actualmente son del 52% y el 31%, respectivamente. Habida cuenta del limitado alcance del despliegue del módulo de viajes de Umoja en el segundo semestre de 2014 (es decir, solo la prueba piloto en la MINUSTAH), estos datos no se han considerado en el análisis de las tendencias de cumplimiento.

67. El cumplimiento de la política de adquisición anticipada se ha visto afectado negativamente por la transición hacia el módulo de viajes de Umoja. Los viajeros oficiales, los administradores y encargados de la aprobación de los viajes han tardado en familiarizarse suficientemente con el nuevo módulo y el flujo de trabajo y los procesos institucionales conexos. Antes del despliegue de los diversos grupos se aplicaron los denominados períodos “sin servicio” de una a dos semanas, en los que no se podían registrar transacciones en el sistema antiguo ni en el módulo de Umoja. Tras la activación, esas transacciones se registraron retroactivamente en Umoja, a menudo cerca o después de la fecha del viaje. Además, los diversos problemas sistémicos que han afectado al módulo de viajes desde su inicio han dado lugar a demoras en el proceso de aprobación de los viajes.

68. Con el tiempo, se espera que mejore el cumplimiento como resultado de una mayor competencia de los usuarios de los sistemas y una mayor estabilización del módulo de viajes de Umoja. Sin embargo, sería necesaria una mejor planificación para lograr una mejora significativa a nivel departamental. Para una sinopsis de los gastos por esfera institucional de Umoja, véase el anexo XXII.

69. Para comparar las tasas de cumplimiento de la adquisición anticipada de billetes logradas en la Secretaría con las de otras organizaciones, en el anexo XXIII figuran los parámetros de referencia del sector de las organizaciones de la Red Interinstitucional de Viajes. Aunque debería ser posible mejorar el cumplimiento de

la media del grupo de cumplimiento “bajo”, el desempeño al nivel de las organizaciones con un cumplimiento “medio” y “alto” podría ser difícil, habida cuenta de la naturaleza singular de la respuesta de emergencia de muchos de los departamentos de la Secretaría. Las organizaciones con un cumplimiento “medio” y “alto” suelen tener pautas de viaje más estables y previsibles.

## **VIII. Datos consolidados sobre los logros alcanzados mediante la aplicación de la sección VI de la resolución [67/254 A](#)**

70. De conformidad con la sección IV, párrafo 13, de su resolución [69/274 A](#), la Asamblea General solicitó al Secretario General que presentara datos consolidados sobre los logros alcanzados mediante la aplicación de la sección VI de su resolución [67/254 A](#).

71. En agosto de 2013 se introdujo la política sobre viajes revisada ([ST/AI/2013/3](#)). En la información adicional y las aclaraciones proporcionadas a la Comisión Consultiva y la Quinta Comisión después del informe anterior del Secretario General sobre las condiciones de viaje por vía aérea ([A/69/643](#)), la Oficina de Servicios Centrales de Apoyo informó de una disminución del 8,9% del precio medio de los pasajes para viajes gestionados por la Sede de las Naciones Unidas en 2014. Lamentablemente, en esos momentos no se disponía de estadísticas de toda la Secretaría.

72. Entretanto, la Oficina de Servicios Centrales de Apoyo ha reunido información sobre el precio medio de los pasajes entre 2013 y 2014 de las oficinas más grandes de tramitación de viajes de la Secretaría. En conjunto, esas oficinas representan aproximadamente el 80% de los viajes por vía aérea en la Secretaría, y por lo tanto se consideran una muestra representativa. En 2014, el precio medio de los pasajes en esas oficinas se redujo un 6,1%.

73. Habida cuenta de que la nueva política de viajes entró en vigor en el tercer trimestre de 2013, cabe suponer que la política de viajes revisada es el principal factor subyacente de la disminución del precio medio de los pasajes de un año a otro.

74. Sin embargo, se debe señalar que cabe esperar que se mantengan las economías “puntuales” obtenidas como resultado de la aplicación de la política de viajes revisada en 2013, pero no economías adicionales con esta política revisada. El precio medio de un pasaje para 2015, y más allá, ha vuelto a depender de los acontecimientos más amplios de fijación de precios de la industria.

75. Como el total de gastos en viajes se ve afectado por muchos factores, entre ellos la modificación de las pautas de viaje, las necesidades institucionales y los niveles de precios, no tendría sentido seguir calculando los efectos de la política sobre viajes revisada de 2013 en años futuros.

## **IX. Evaluación de las condiciones de viaje de las Naciones Unidas sobre la clase de viajes por vía aérea**

76. En la sección IV de su resolución 69/274 A, la Asamblea General hizo suyas las conclusiones y recomendaciones que figuran en el informe de la Comisión Consultiva (A/69/787), en el que, entre otras cosas, recomendó al Secretario General que presentase una evaluación de las condiciones de viaje en las Naciones Unidas en lo que respecta a las clases de viaje por vía aérea y, si se justificara, formulara propuestas sobre la cuestión.

77. A fin de proporcionar a la Asamblea General una actualización completa sobre las condiciones de viaje, en octubre de 2016 la Secretaría reunió información sobre el tema de la Red Interinstitucional de Viajes y la Red de Referencia de Servicios de Viajes.

78. Las respuestas de un total de 13 organizaciones miembro de la Red Interinstitucional de Viajes indican que el umbral promedio para esas organizaciones del sector público para los viajes en clase ejecutiva es de 6,4 horas de viaje, con un mínimo de 3 horas y un máximo de 9 horas.

79. Las respuestas de las organizaciones miembro de la Red de Referencia de Servicios de Viajes indican que tienen un umbral similar para los viajes en clase ejecutiva: el umbral promedio es 6,8 horas de viaje, con un mínimo de 5 horas y un máximo de 12 horas.

80. Cabe señalar que el cálculo del tiempo de viaje difiere según cada organización. Algunas organizaciones tienen en cuenta las escalas, mientras que otras consideran que el tiempo de viaje es igual al tiempo de vuelo.

81. La gran mayoría de las organizaciones siguen ofreciendo la clase ejecutiva como clase estándar de viaje en los casos en que el tiempo de viaje supera el umbral predeterminado. Solo dos de las organizaciones miembro de la Red Interinstitucional de Viajes consideran que la denominada clase “económica superior” es la clase apropiada en esas circunstancias. Es de suponer que esto se debe a la gran variación y disponibilidad de la clase económica superior ofrecida por las aerolíneas, que puede ir desde solo comidas gratuitas hasta espacio para las piernas adicional limitado. No todas las aerolíneas disponen consistentemente de la clase económica superior. Dentro de una misma aerolínea, la disponibilidad puede diferir no solo entre las rutas, sino incluso en las mismas rutas, según las aeronaves utilizadas. Por consiguiente, la clase económica superior no suele considerarse todavía un sustituto de la clase ejecutiva.

82. Al igual que en la Secretaría, otras organizaciones parecen ofrecer la clase económica superior como norma a los viajeros que aceptan voluntariamente una clase inferior.

83. Las aerolíneas siguen mejorando las condiciones de viaje distintas de la clase económica básica, y se propone reevaluar periódicamente las condiciones de viaje a fin de que la política de viajes de la Secretaría siga estando en consonancia con las tendencias del sector más amplio.

## X. Opción de la suma fija

84. En su resolución [67/254 A](#), la Asamblea General decidió que el Secretario General, como medida provisional a la espera del resultado del examen que concluiría en 2015, revisara la disposición para determinar la suma fija relacionada con viajes de modo que esta fuera equivalente al 70% de la tarifa menos restrictiva en clase económica. La Asamblea General también solicitó al Secretario General que incluyera en su informe sobre las condiciones de viaje por vía aérea que le presentaría en su sexagésimo noveno período de sesiones, un análisis de los efectos de la aplicación de esa disposición y que presentara otras propuestas sobre la modificación del régimen de suma fija. La información solicitada se proporcionó en los párrafos 19 a 30 del anexo XXII del informe del Secretario General ([A/69/643](#) y Corr.1), en que el Secretario General propuso, entre otras cosas, que se mantuviera la disposición de pagar una suma fija del 70% de la tarifa de clase económica menos restrictiva hasta que se presentase otra propuesta sobre la base de la experiencia adquirida y un análisis al respecto.

85. La Asamblea General, en su resolución [69/274 A](#), tomó nota del informe del Secretario General e hizo suyas las recomendaciones que la Comisión Consultiva en Asuntos Administrativos y de Presupuesto formuló en los párrafos 22 a 24 de su informe ([A/69/787](#)). En particular, la Comisión Consultiva fue de la opinión de que debía alentarse un mayor uso por el personal de la opción de la suma fija, y recomendó que se hiciera un nuevo análisis con miras a hallar el debido equilibrio entre las ventajas que pudieran obtenerse mediante una mayor disminución de la suma fija y los mayores costos resultantes de la disminución del personal dispuesto a hacer uso de esa opción, incluidos los gastos de administración para la emisión de billetes, y se presentasen los resultados de su análisis en el próximo informe del Secretario General. En el estudio debería también tenerse en cuenta la reducción del volumen de trabajo administrativo relacionado con el uso de la opción de la suma fija y proporcionar una estimación al respecto.

86. El análisis adicional realizado por la Secretaría para el período comprendido entre junio de 2014 y junio de 2015, antes del despliegue de Umoja, mostró que, como promedio, el uso de la suma fija en el plan actual representaba una reducción de costos de aproximadamente el 21% por viajero, en comparación con el total de gastos de la opción de adquisición de pasajes (pasajes, pequeños gastos de salida y llegada y gastos de envío). No obstante, el análisis preliminar de los datos sobre viajes de Umoja de enero a agosto de 2016 muestra que la tasa de aceptación de la opción del pago de una suma fija ha disminuido del 93% comunicado anteriormente al 74%; el 26% restante corresponde a los funcionarios que optan por que las Naciones Unidas se encarguen de suministrar los pasajes y otras prestaciones conexas, lo que supone mayores gastos para la Organización.

87. Dado que la reunión y el análisis de información sobre viajes de Umoja solo ha sido posible en 2016, y teniendo en cuenta que los funcionarios pueden realizar viajes por licencia en el país de origen solo una vez cada 24 meses, en el momento de preparar el presente informe no fue posible realizar un análisis amplio. Por tanto, el Secretario General tiene la intención de seguir examinando la aplicación de la opción de pago de una suma fija sobre la base de los datos de viajes de Umoja, incluido un análisis de los costos administrativos más elevados (así como los

mayores costos directos) como resultado de una disminución del número de funcionarios dispuestos a utilizar la opción de la suma fija, e incluir toda futura propuesta de cambio en su próximo informe sobre las condiciones de viaje por vía aérea que se presentará a la Asamblea General en la primera parte de la continuación de su septuagésimo tercer período de sesiones.

88. El Secretario General también coordinará con otras organizaciones del régimen común de las Naciones Unidas para estudiar la posibilidad de preservar la coherencia del régimen común sobre las políticas de viajes, aunque cabe señalar que la mayoría de esas organizaciones siguen ofreciendo una opción de suma fija más generosa, equivalente al 75% o el 80% de la tarifa completa en clase económica sin restricciones (como se señala en el párrafo 21 del anexo XXII del informe anterior del Secretario General sobre las condiciones de viaje por vía aérea ([A/69/643](#))).
